- Data base management
- Audit activities

## METHODS OF DELIVERY AND LEVELS OF SUPPORT

### Managed Services: Dedicated Support for Long-Term Success

Our Managed Services personnel seamlessly integrate into your team, providing consistent and dedicated project support tailored to your specific needs. With experienced leadership and scalable on-site assistance, we ensure direct communication with your management team while maintaining accountability across all levels.

We go beyond traditional support by overseeing employee development, fostering operational efficiency, and driving long-term success. Where applicable, we take on the full scope of training and onboarding responsibilities, enabling your team to remain focused on core

business priorities. This approach ensures a swift ramp-up for new resources while delivering immediate value.

### **Integrated Consulting: Flexible, Scalable Solutions**

ENTRUST's Integrated Consulting brings seasoned PMO experts directly into your organization to solve complex challenges through process design, system optimization, and strategic guidance. Our consultants embed within your team to assess gaps, align tools and workflows, and deliver tailored solutions that drive performance and scalability.

We combine proprietary PMO system tools with hands-on expertise to harmonize technology, people, and operations.

From organizational maturity assessments to business process redesign and tool optimization, we help clients unlock efficiency and accelerate outcomes.

Our team doesn't just advise, we implement. With a focus on strategic execution, practical adoption,

and measurable impact, ENTRUST enables confident scaling and long-term value.

### **Comprehensive Project Delivery: Expert Management for Seamless Execution**

ENTRUST's PMO experts provide end-to-end delivery support that transforms strategy into results. We embed seasoned consultants within your organization to lead initiatives from planning through close-out, ensuring alignment, efficiency, and accountability at every stage.

Our approach combines proven methodologies with deep industry expertise to address gaps, optimize processes, and integrate system tools for maximum performance. Whether standing up a new PMO framework, driving digital transformation, or accelerating critical projects, we deliver solutions that scale and sustain.

With ENTRUST, you gain a strategic partner focused on execution excellence, turning complex challenges into streamlined outcomes that advance your business objectives.
